

# Custom License — Minecraft PE (Browser Tribute)

Copyright (c) 2026 astrome0. All rights reserved except as explicitly granted below.

This project is a fan-made tribute created for fun and educational purposes. It is not affiliated with, endorsed by, or sponsored by Mojang Studios or Microsoft Corporation. "Minecraft" is a trademark of Mojang Studios; no trademark rights are claimed or granted by this license.

## 1. Definitions

- **"The Project"** means the source code, assets, and documentation contained in this repository, including but not limited to the game client, the multiplayer relay server, procedurally generated textures/sounds/music logic, and any accompanying configuration files.
- **"You"** means any individual or entity exercising permissions under this license.
- **"Modified Version"** means any fork, derivative, mod, patch, or adaptation of the Project, whether the changes are large or small.
- **"Commercial Use"** means any use of the Project or a Modified Version that is intended for or directed toward commercial advantage or monetary compensation. This includes, without limitation: selling the Project or access to it, bundling it into a paid product or service, using it to generate advertising revenue, or offering it as part of a paid hosting/subscription service.
- **"Non-Commercial Use"** means any use that does not meet the definition of Commercial Use above, such as personal play, learning, portfolio demonstration, or sharing with friends without payment.

## 2. Permissions

Subject to the conditions in this license, you are free to:

- **Use** — play the game, run it locally, or access it via the hosted link, for Non-Commercial Use.
- **Learn** — read, study, and analyze the source code, including its world generation,

networking, rendering, audio synthesis, and multiplayer relay logic.

- **Modify** — fork and change the code, assets, or logic for your own Non-Commercial Use.
- **Share** — redistribute unmodified copies of the Project, or share links to the original repository, provided attribution is preserved.

### 3. Restrictions

You may **not**, under any circumstances:

- **Rename** the Project, or a Modified Version of it, and present it as an independent, unrelated work.
- **Relicense** the Project or any Modified Version under different terms, whether more permissive or more restrictive than this license.
- **Sell** the Project, its source code, its assets, or any Modified Version — in whole or in part — or otherwise engage in Commercial Use without explicit written permission from the author.
- **Claim authorship** — remove, obscure, or alter copyright notices or attribution, claim to be the original author, or publish a Modified Version without a clear, visible link back to this original repository and a clear statement that it is a fork or modification.
- Use the Project's assets (including procedurally generated textures, sound effects, and music generation logic) separately from the Project for any purpose not otherwise permitted by this license.
- Use the Project, in whole or in part, to train, fine-tune, or otherwise develop machine learning or AI models, without explicit written permission from the author.

### 4. Conditions for Forks and Modified Versions

If you publish a Modified Version (fork, mod, patch, etc.), it must:

1. remain limited to Non-Commercial Use;
2. include a visible, working link to the original repository and credit the original author (astrome0);
3. clearly and prominently state that it is a **Modified Version / fork**, not the original Project;

4. reproduce this license in full and unmodified for any further redistribution;
5. not misrepresent the relationship between the Modified Version and the original Project, the author, or Mojang/Microsoft.

## **5. Termination**

Any violation of the restrictions in Section 3 automatically terminates the permissions granted to you under this license. Upon termination, you must cease all use, distribution, and modification of the Project and destroy any copies in your possession, except as required to comply with applicable law.

## **6. No Warranty**

The Project is provided "AS IS", without warranty of any kind, express or implied, including but not limited to the warranties of merchantability, fitness for a particular purpose, and non-infringement.

## **7. Limitation of Liability**

In no event shall the author be liable for any claim, damages, or other liability, whether in an action of contract, tort, or otherwise, arising from, out of, or in connection with the Project or the use or other dealings in the Project.

## **8. Contact and Exceptions**

For Commercial Use, relicensing, or any other exception to these terms, contact the author (astrome0) via GitHub. Exceptions must be granted in writing to be valid.
